

	Parallel ESVV session 7		Parallel ESVV session 8	Parallel ESVV session 9	Parallel ESVV session 10
	Topic	Enteric viruses	General Virology 2	General Virology 1	Emerging virus & diseases 2
	Duration	75 min	75 min	75 min	75 min
		Chair: J-M. Sánchez-Vizcaíno & T. Lefrançois	Chair: L. Dixon & T. Mettenleiter	Chair: T. Van den Berg & S. Bertagnoli	Chair: T. Drew & A. Lavazza
	9h15-9h30	Comparative analysis of the faecal virome of dogs with various inflammatory intestinal diseases <u>Paloma Moreno</u> , Josef Wagner, James Gilkerson, Matthew Stevens, Carl Kirkwood, Caroline Mansfield	Next generation sequencing of British outbreak cases of Equine Infectious Anaemia Virus: sequence variation and phylogeny among European outbreaks <u>Daniel Robinson</u> , Nicolas Locker, Falko Steinbach, Bhudipa Choudhury	Molecular analysis of canine parvovirus type 2 in New Zealand <u>Magda Dunowska</u> , Sylvia Ohneiser, Simon Hills, Nick Cave, Doug Passmore	A devastating outbreak of orthopoxvirus infection in Macaca Tonkeana <u>Giusy Cardeti</u> , Claudia Eleni, Maria Teresa Scicluna, Fabrizio Carletti, Stefania Sittinieri, Roberta Giordani, Marina Cittadini, Lorenzo De Marco, Gian Luca Autorino
	9h30-9h45	Clinical, virological, and immunological parameters during experimental feline enteric coronavirus infection <u>Lowiese Desmarests</u> , Sebastiaan Theuns, Nádia Conceição-Neto, Inge Roukaerts, Delphine Acar, Jelle Matthijnsens, Hans Nauwynck	MetLab: a bioinformatics platform for viral metagenomics experiments Martin Norling, Oskar Karlsson, Hadrien Gourlé, Erik Bongcam-Rudloff, <u>Juliette Hayer</u>	Canine infectious tracheobronchitis in Swedish dogs & what does a metagenomics approach reveal? <u>Maja Malmberg</u> , Juliette Hayer, Oskar Karlsson, Anne-Lie Blomström, Bodil Ström Holst, Jonas Johansson Wensman	New bornavirus discovered in variegated squirrels: Potential link to fatal human infections Bernd Hoffmann, Dennis Tappe, Kore Schlottau, Dirk Höper, Christiane Herden, Maria Jenckel, Donata Hoffmann, Jens Teifke, Christine Fast, Kerstin Tauscher, Daniel Cadar, Christian Mawrin, Jonas Schmidt-Chanasit, Rainer Ulrich, <u>Martin Beer</u>
	9h45-10h00	Factors affecting the occurrence of canine parvovirus disease in dogs <u>Carla Miranda</u> , Júlio Carvalheira, Colin Parrish, Gertrude Thompson	Capsid proteins of porcine circoviruses interact differentially with the cellular protein gC1qR <u>Guy Kouokam</u> , Claire de Boissésou, Cecilia Bernard, Lionel Bigault, Annette Mankertz, Yannick Blanchard, André Jestin, Beatrice Grasland	Staining and expression kinetics of the feline immunodeficiency virus envelope glycoprotein <u>Inge Roukaerts</u> , Chris Grant, Lowiese Desmarests, Sebastiaan Theuns, Isaura Christiaens, Delphine Acar, Hans Nauwynck	Wobbly possum disease: the proof of causation <u>Magdalena Dunowska</u> , Julia Giles, Matthew Perrott
	10h00-10h15	Complete genome characterization of recent and ancient Belgian pig group A rotaviruses and assessment of their evolutionary relationship with human rotaviruses <u>Sebastiaan Theuns</u> , Elisabeth Heylen, Mark Zeller, Inge Roukaerts, Lowiese Desmarests, Marc van Ranst, Hans Nauwynck, Jelle Matthijnsens	Superinfection exclusion during infection with African swine fever virus <u>Raquel Portugal</u> , Gunther Keil	Evaluation of genetic differences between the avirulent and virulent pathotypes of feline coronaviruses Ruisong Yu, <u>Herman Egberink</u> , Hui-Wen Chang, Peter Rottier	Detection and characterization of a novel reassortant Mammalian Orthoreovirus of bats in Europe <u>Davide Lelli</u> , Ana Moreno, Andrej Steyer, Tina Naglič, Alice Prosperi, Francesca Faccin, Antonio Lavazza
	10h15-10h30	First detection and phylogenetic analysis of porcine bocaviruses identified in Slovenia <u>Ivan Toplak</u> , Zoran Žlabravec, Petra Lainšček, Danijela Rihtarič	Epigenetic regulation of the viral RNA telomerase subunit over-expressed in lymphoma induced by Marek's Disease Virus <u>Srdan Pejaković</u> , André Claude Mbouombouo Mfossa, Carole Mignon, Isabelle Gennart, Damien Coupeau, Sylvie Laurent, Denis Rasschaert, Benoît Muylkens	Molecular epidemiology, prevalence and risk factors of FCV infection in European domestic felines <u>Maria Afonso</u> , Gina Pinchbeck, Shirley Bonner, Rosalind Gaskell, Janet Daly, Susan Dawson, Alan Radford	Genetic characterization of a novel adenovirus detected in captive bottlenose dolphin (Tursiops truncatus) suffering from self-limiting gastroenteritis <u>Maja Malmberg</u> , Consuelo Rubio-Guerri, Daniel García-Párraga, Elvira Nieto-Peigrín, Mar Melero, Teresa Álvaro, Mónica Valls, Jose Luis Crespo, Jose Manuel Sánchez-Vizcaíno, Sándor Belák, Fredrik Granberg
